North American Industry Classification (NAIC)

- 518210 Data Processing, Hosting, and Related Services
- 541511 Custom Computer Programming Services
- 541512 Computer Systems Design Services
- 541513 Computer Facilities Management Services
- 541519 Other Computer Related Services
- 561621 Security Systems Services (except Locksmiths)

Protecting People and Property

Founded in 1999, LABUSA is a provider of commercial electronic security products and services. Licensed by the Texas Department of Public Safety (TxDPS), LABUSA delivers alarm, access control, surveillance, and monitoring solutions. Specializing in integrated computing and security infrastructures, LABUSA clients are forward-thinking and security-conscious government agencies and small & large businesses across a wide range of industries.

Recent Past Performance and Solutions

- *Implementing security for high risk businesses, LABUSA provided a publically traded biotechnology company with biometric security and monitoring services.*
- *Enabling security on patient information, LABUSA implemented a HIPAA compliant electronic file storage and fax solution for a nationwide network of medical facilities.*
- *Increasing the security profile for a government military base, LABUSA designed and installed a state-of-the-art video surveillance and incident response solution.*
- *Managing national security at the border, LABUSA upgraded a government agency's video surveillance and monitoring technology.*
- *Enhancing security for the hospitality industry, LABUSA serves as an allied member*
